

MEMORANDUM

To: Planning Commission

From: Lynn Deitrick

Date: August 21, 2012

Subject: Boundary Line Adjustment (BLA) – Code Amendment

At the July 24 Planning Commission meeting it was requested that a representative from Lewis County Health be invited to attend the next scheduled work session on the proposed code amendment to field questions from the commissioners.

The previous staff report included attachments for the Planning Commission review that provided new language repealing the existing Boundary Line Adjustment language in Lewis County Code 16.02.040(8) as attachment A. The current existing BLA language was provided for your reference as attachment B.

Following this Planning Commission review and comments a public hearing needs to be scheduled before the Lewis County Planning Commission to receive public testimony on the proposed code amendment.

If the Planning Commission does not require an additional work session(s), staff recommends that a public hearing be set.
